The image shows a multi-level restaurant interior. The ceiling is made of dark wood and features numerous large, spherical, woven wicker pendant lamps that emit a warm, golden glow. The dining area is furnished with light-colored wooden tables and chairs with woven wicker seats. A long, low, light-colored upholstered bench runs along the side of the room. In the background, there are palm trees and a mezzanine level with a glass railing. The overall atmosphere is cozy and contemporary.

KAJA Collection Book

YOUR PARTNER FOR THE BROAD HOSPITALITY SECTOR

Customers, employees, visitors, residents, patients or clients. We are guests in an environment. Sometimes for a short break, sometimes to meet up again after a long time, sometimes for relaxing together, sometimes for a long stay.

It is the overall memory of a visit or stay that remains. The interior, the furnishings or the furniture in the environment play an essential role in the well-being and experience of every guest. We are convinced of this.

Kaja is there for organisations that consider hospitality of paramount importance. For those who want to facilitate or stimulate the well-being or experience of their guests and are willing to invest in an appropriate interior. From that one ultimate eye-catcher of a chair to a complete customised hospitality (interior) design. From a small restyle of your interior to a complete renovation of your hospitality environment. Furniture, design and realisation. That's where you need to come to us.

DESIGNED BY MART VISSER

A design by none other than Mart Visser. Mart Visser told us during our Inspire event: "Last year, I presented the furniture collection for the first time at a trade fair in Shanghai. Nobody knew me there, so that was a good test. But the collection was very well received, after which we presented it at Maison et Objet in Paris. Because of those fairs, my interior collection has already been used to decorate congress centres and hotels."
