## THE PARTNER FOR THE HOSPATILITY SECTOR

Customers, employees, visitors, residents, patients or clients. We are guests in an environment. Sometimes for a short break, sometimes to meet up again after a long time, sometimes for relaxing together, sometimes for a long stay.

It's the overall memory of a visit or stay that remains. The interior, the furnishings or the furniture in the environment play an essential role in the well-being and experience of every guest. We are convinced of this.

Kaja is there for organisations that consider hospitality of paramount importance. For those who want to facilitate or stimulate the well-being or experience of their guests and are willing to invest in an appropriate interior. From that one customised hospitality (interior) design. From a small restyle of your interior to a complete renovation of your hospitality environment. Furniture, design and realisation. That's where you need to come to us.

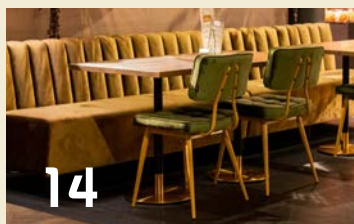

## VALENCIA, DEVENTER

A dream destination, when you walk in, everything makes an immediate impression. A circus and beach experience was created by Kaja and clients.

## DESIGNED BY MART VISSER

A design by none other than Mart Visser. Mart Visser told us during our inspire event: "Last year, I presented the furniture collection for the first time at a trade fair in Shanghai. Nobody knew me there, so that was a good test. But the collection was very well received, after which we presented it at Maison et Objet in Paris. Because of those fairs, my interior collection has already been used to decorate congress centres and hotels."

## GASTROBAR 1910, ALMELO

In a historic building in the centre of Almelo, Gastrobar 1910 opened its doors. A restaurant where it's all about good meat and fish dishes.

The warm and natural tones make it a modern and atmospheric design. The golden elements in the interior serve as true eye-catchers.

## VALENCIA, DEVENTER

In the middle of the Havenkwartier, guests can experience a unique all-year summer concept. In a Mediterranean atmosphere, guests spontaneously drop in for a drink or enjoy the most delicious tapas dishes. No big plates full of fuss, but Fair, delicious dishes that can be shared, that is the signature of the kitchen. Small works of art, surprising flavours.

The signature interior design concept? Decorating the space effectively and attractively? Creating a unique guest experience? Kaja Interiors was able to help and relieve the three hotel and catering entrepreneurs of this task. From A to Z. Under the Walt Disney motto: 'If you can dream it, we can create it'.

A photograph of an outdoor terrace at a restaurant. In the foreground, a round wooden table is set for four people with white napkins, glasses, and a small potted plant. The table is surrounded by green wicker chairs with black frames. In the background, a large green umbrella with a fringe edge stands over another table. A large potted tree is also visible. The terrace is paved with light-colored tiles, and a decorative metal screen with a circular pattern is in the background.

## SIZZLES AT THE PARK

Every hospitality entrepreneur enjoys this moment and would like to have their terrace filled. We like to think along with you to make the terrace stylish, cosy and irresistible to guests. We can supply your terrace interior for any budget and any wish.
